

Bald Eagle

Recommended ages 4-12

Parent supervision advised

Make a simple, adorable bald eagle out of materials from around the house!

Materials:

- Toilet paper roll
- Paint: brown, white
- Paintbrushes
- Construction paper – brown and orange
- Black marker
- Scissors
- Googly eyes if you have them (use markers if not)
- Glue

Instructions:

1. Trace two hands on the brown construction paper. These will become the wings.
2. Draw two feet and a beak on the orange paper (triangles are the simplest).
3. Draw a line around the toilet paper roll, about 3/4ths of the way up the roll.
4. Paint the top part of the roll white, and the bottom brown (or use brown and white paper glued on).
5. Cut out the parts from the construction paper.
6. Glue everything to the paper roll, including the googly eyes.
7. There you have it; an eagle is born!
