

Egg Carton Mushroom

Recommended ages 4-12

Parent supervision advised

Make an adorable collection of mushrooms with this low budget craft.

Materials:

- Cardboard Egg Cartons
- Acrylic Paints
- Hot Glue Gun
- Scissors

Instructions:

1. Cut out the 'cup' portion of the egg carton to make the mushroom head. Cut out as many as you want, and then trim the edges to keep them even.
2. With your hand, flatten the cups a little bit.
3. Paint the heads of the mushrooms any colors you want.
4. Make the mushroom stem by cutting out the side of the egg carton into long strips. Roll up a strip into a stem and hot glue it so it stays.
5. Once it is dried, glue the stem and mushroom top together.
