

NOTES:

(E) = non-native to NYS

(I) = invasive species know to threaten natural areas

(P) = protected in NYS (NY Natural Heritage Program)

Nomenclature follows R.S. Mitchell and G.C. Tucker. 1997.

Revised Checklist of New York State Plants. (NY State Museum)

Huyck Preserve Statistical Summary:

689 vascular plant taxa (681 species), 514 native to NY State

331 genera, 255 native to NY State

99 families, 94 native to NY State

10 protected species

New York State Statistical Summary:

4120 vascular plant taxa, 2435 native to NY

2,078 native species

84 native species extirpated as of 1997

Revised May, 2009

George Robinson, UAlbany
